WEATHER:

Vale Weather: Partly Cloudy

Temp 57-71 Rh's 19-29%, Winds W 10-20 mph, Haines 3 (Very Low), LAL 1

Pendleton Weather: Becoming Partly Cloudy

Temps 62-68, except 55-61 Ridges, Rh's 34-42%, Wind NW 5-8 mph, Haines 2 (Very Low), LAL 1

DEFINITIONS:

LAL (Lightning Activity Level): A numerical rating from the lowest of 1 to the highest of 6, keyed to the start of thunderstorms and the frequency and character of cloud-to-ground lightning forecasted or observed on a rating area during a rating period.

Haines Index: A national fire-weather index based on the stability and moisture content of the lower atmosphere and their direct relationship to the growth of large fires. The index is from 2-6 with 2 being the lowest potential for large fire growth while 6 is the highest large fire growth potential.
